

WOOLLY MAMMOTH

STOVES

THE EVOLUTION OF FIRE

The Third Generation of the Woolly Mammoth Stove Collection...

The Woolly Mammoth Stove range has firmly established itself as a staple in the UK stove industry, offering feature-rich, highly efficient models that continue to evolve and improve. The third generation of the Woolly Mammoth range brings numerous enhancements, refined attention to detail, a refreshed design, and two exciting new models. Built on a legacy of quality and continuous innovation, we're proud to introduce the latest in our collection of modern, DEFRA approved, EcoDesign Ready stoves.

Choose British

The Woolly Mammoth brand was conceived in the UK and designed in-house specifically for the domestic market with HETAS trained professionals and lab technicians here in the UK overseeing the development of every feature and aspect. Each lovingly crafted Woolly Mammoth stove undergoes a full check before passing quality control to ensure that every model is supplied in premium condition.

Choose Style

The clean yet timeless design of the Woolly Mammoth Collection ensures these solid fuel heating appliances are equally adept in both traditional and contemporary settings and are the perfect companion for your living space. This new diverse collection of wood-burning and multi-fuel stoves feature a multitude of options including direct external air compatibility, a selection of leg and log store options and hand-painted door frame colours, ensuring Woolly Mammoth Stoves offer something to suit all tastes and room spaces.

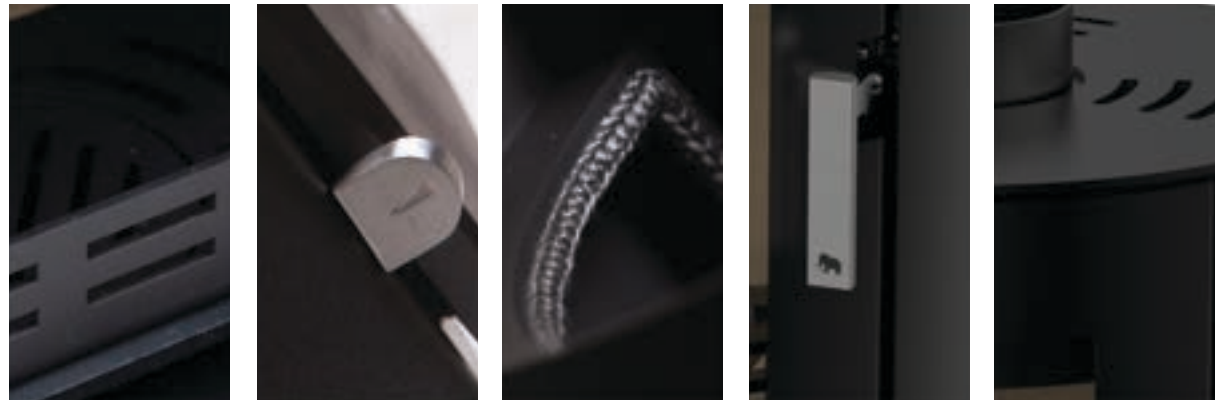

Choose the Environment

The impact our stoves have on the environment has always been at the forefront of our minds when creating the Woolly Mammoth Collection. With increased focus on air pollution and the effects of air quality, we have designed the Woolly Mammoth stoves to not only meet but exceed regulations for emissions.

We continue to innovate and improve with each generation and back up our designs with stringent lab tests to prove the efficiency of our appliances. All our stoves are fully DEFRA approved for use in smokeless zones and exceed all the emissions limits, so you can rest assured that you are making a responsible choice when choosing a Woolly Mammoth Stove.

Choose Woolly Mammoth

Each Woolly Mammoth Stove is manufactured with precision and quality of build in mind and boasts a wealth of innovative features.

- DEFRA approved for use in smokeless zones
- Latest EcoDesign and clearSkies compliant design for clean, efficient and low environmental impact wood burning
- Direct external air capable
- Suitable for 12mm hearth
- Cool-touch handles as standard
- Rear-drawn airwash system for superior glass protection
- Adjustable primary and secondary air controls for true multi-fuel burning
- Adjustable tertiary air control for higher fuel efficiency
- Fully insulated firebox
- Generous viewing glass
- Effective door and glass seals
- Sleek design featuring integrated door hinges
- Brushed handles
- 150mm & 300mm leg/log store options on 5, 5w and 8 models
- Hand painted door colours available on 5, 5w and 8 models

WOOLLY MAMMOTH 5 MK3

The third generation of this classic Woolly Mammoth stove delivers enhanced features, superior precision engineering, and exceptional performance. This hugely popular model now includes a cool-touch handle, adding a sleek and contemporary finish. DEFRA approved for use in smokeless zones, it burns wood and coal with outstanding efficiency and cleanliness, surpassing EcoDesign emission standards. Cool hearth rated and direct air compatible, this stove has earned its reputation and the latest incarnation marks the pinnacle of its evolution.
